

# FLIP FLAP FIND COUNTING 123

by Dorling Kindersley

Count the animal eggs from 1 to 10.  
Can you guess what will hatch?

Peep through the holes and  
flip the flaps to find out!

## Ripping Up Paper

Children love this noisy activity. It's also a great way to boost their language development!

Try ripping up different bits of paper together and describe the sounds you hear.

Remember to use recyclable paper for this activity where you can.

## Counting Fun

Use daily routines as opportunities to help your child learn to count.

At bedtime: **"OK, we're counting to 3 and then it's time for bed. Help me count... 1, 2, 3."**

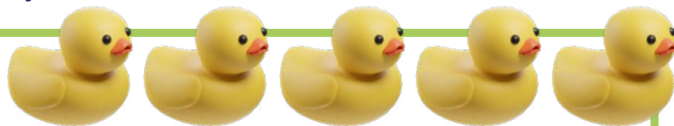

At bath time: **"We will wash your tummy 1, 2, 3 times! Ready? 1, 2, 3."**

While walking, count your steps, **"Let's count them... 1, 2, 3."**

Try this activity at different times of the day.

Make counting fun – you could add silly voices as you count too!

## 5 Little Ducks

**Five little ducks went swimming one day,  
over the hill and far away.  
Mamma duck said: 'Quack, quack, quack, quack!'  
and only FOUR little ducks came back.**

Continue counting down with each verse until you get to 1 little duck and then sing...

**One little duck went swimming one day,  
over the hill and far away.  
Mamma duck said: 'Quack, quack, quack, quack!'  
and all her five little ducks came back.**
